DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 13 are allowed.
2. The following is an examiner's statement of reasons for allowance: the record of prior art does not show an electromagnetic drive device having a coil frame with a hollow tubular shape and formed of two coil frame halves divided along a longitudinal direction thereof, wherein a coil wound around the outer periphery of the coil frame in a direction intersecting joint faces at longitudinal ends of the two coil frame halves.

The best prior arts of record include Hashimotor, Kitahara, and Horiike. However, Kitahara teaches the coil wound around the pole core inside the coil frame, while Hashimoto and Horiike does not teach the coil frame forming of two coil frame halves divided along a longitudinal direction for the coil wound around.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
